## **Completed construction of Takamatsu headquarters Factory**

We are pleased to announce the completion of our Takamatsu headquarters factory, which has been under construction in Takamatsu City, Kagawa Prefecture, on March 14, 2025.

In recent times, there has been a movement toward reshoring manufacturing in response to economic security and BCP (Business Continuity Planning) considerations.

To respond to this trend and aim for further growth in our EMS (Electronic Manufacturing Services) business, we have constructed a factory equipped with the latest environmental energy-saving technologies. Furthermore, we have created a comfortable working environment that enhances our employees' well-being.

Following the completion of the new headquarters factory, we will relocate and consolidate the Takamatsu headquarters and Takamatsu factory (Global EMS Center).

### < Overview of the Takamatsu Headquarters Factory >

Location:

4-1-51, Asahimachi, Takamatsu-shi, Kagawa 760-0065, Japan
