Notice-New Construction of Warehouse in Hayashima, Okayama

Our company has decided to construct 4 temperature zone distribution center in Hayashima, Okayama. Construction started in October 2018, and is scheduled to be completed in July 2019.

In our center, we cope with the needs of the food supply chain expanding from assortment of the freezing and refrigeration product to cooperative distribution, merchandise management, production processing service.

We focus on the expansion of the low temperature circulation service with one of the important strategies of the logistics business.

By the construction of 4 temperature zone distribution center of Middle Shikoku area, we will push forward the construction of the supply chain with the added value in future.
