Notice- Established New Distribution Center in Thailand and Started Operation

We established new distribution center in Thailand and started its operation on August 1st 2018.

In 2011, we established our first oversea distribution center in Thailand and conducted DC business. With the new distribution center, we are going to expand DC business, distributive procession business such as inspection/assemble etc., design/manufacturing business of steel packing frame for transportation. Total floor area is about 26000 m² which is about 5 times larger than the previous distribution center.

The new distribution center is situated in Amata Nakorn Industrial Estate, the largest industrial estate in Thailand which is situated between the capital Bangkok and the main Laem Chabang port. There is an automobile park as well as various companies from metal product and chemistry etc. Also, investment to high-technology industry such as medical/aviation/robot are expected in this area.

With this new distribution center, we are going to manage growing storage demand in Thailand and expand our business further.

Also, we are going to fulfill distribution service in Thailand and in cooperation with Hong Kong and Japan and support your business strategy by expanding our global logistics business.

For inquiries, please contact to the following.
